How to play

The Fun Guessing Game From Cute Pictures is simple to play. Just show your child a picture and ask them to guess what it is. If they can't guess, give them some clues. For example, you could tell them what color the object is, what it's used for, or what it sounds like.

Once your child has guessed the object, you can talk about it together. Ask them questions about the object, such as what it's made of, where it's found, or what it's used for. This will help your child learn more about the world around them and develop their language skills.
